* Controlling Baseline Preserved Untouched: The protected 11 November 2026 Master (controlling master PDF, SHA-256 984260e9e5f25346eaa45eefc30a3454a93e9d53b4d65ce625dc0b269413c965, documented in Gospel_Bloodline_HQ_Ancestry_Checkpoint_2026-11-11.txt and Complete bloodline - 190 ancestors - 11 NOV 2026.txt) holds 190 unique admitted direct biological ancestors (191 individuals including #1 Clark Hollin Tucker) across Generations 0–19 and nine Revolutionary War patriots, while the later 11 November export (BLOOD TEXT - 11 NOV 2026.txt and Admitted Ancestors Sheet) holds 195 unique ancestors (210 ancestral positions + #1 = 211). Neither file nor dixiegens.com / dixiegens.net was altered.
* Wall Broken on Front Golf (+7 Unique Direct Ancestors / +14 Dual Ahnentafel Positions at Grade A & Strong Grade B+): Primary English parish registers, probate records, and Massachusetts intestate/equity law break two previously open Bacon maternal walls and extend a verified Hertfordshire English line to Generation 15:
1. #30593 / #30657 Alice Bacon (Gen 14, c. 1585 England – d. 2 Apr 1648 Dedham, MA) — proved by three St. Mary's, Earl Soham, Suffolk baptisms (1607–1612, including #15296 / #15328 Michael Bacon), Dedham death record, and #30592 Michael Bacon's 14 Apr 1648 Suffolk Probate Case #80 (WikiTree Bacon-796; Empty Branches Case #80).
2. #7649 / #7665 Sarah (Richardson) Bacon (Gen 12, bp. 22 Nov 1640 Charlestown, MA – d. 15 Aug 1694 Billerica, MA) — proved as biological mother of #3824 / #3832 Michael Bacon of SC by combining #7648 Michael Bacon's intestacy (Middlesex Probate Case #674) with the 1692 Massachusetts Intestate Distribution Act (filius nullius common-law bar excluding servant Mary Ball's 1671 illegitimate child from inheriting a legal share via #3824's 12 Mar 1716/17 Power of Attorney in Middlesex Deeds 18:333, WikiTree Bacon-2242; Ball-17).
3. #15298 / #15330 Thomas Richardson of Woburn (Gen 13, bp. 3 Jul 1608 Westmill, Herts – d. 28 Aug 1651 Woburn, MA) &
4. #15299 / #15331 Mary Richardson Bacon (Gen 13, c. 1612 England – d. 19 May 1670 Woburn, MA) — proved by verbatim 22 Nov 1640 Charlestown baptism (Charlestown First Church Records) and 22 Sep 1651 Woburn estate inventory (Vinton Richardson Memorial).
4. #30596 / #30660 Thomas Richardson of Westmill (Gen 14, bur. 8 Jan 1633/34 Westmill, Herts; Hitchin will 4 Mar 1630/31, pr. 31 Jul 1634) & 6. #30597 / #30661 Katherine (Duxford) Richardson (Gen 14, bur. 10 Mar 1631/32 Westmill, Herts) — proved by St. Mary the Virgin, Westmill registers (m. 24 Aug 1590; bp. 3 Jul 1608) and Archdeaconry of Huntingdon (Hitchin) probate proved by emigrant son Samuel Richardson (Watkins 1903).
5. #61194 / #61322 Richard Duxford of Westmill (Gen 15, b. bef. 1545 Herts – bur. 23 Apr 1622 Westmill, Herts) — upgraded beyond the earlier New Ancestor Hunt - 11 Nov 2026 draft via his original 23 Mar 1618/19 will proved 2 Jul 1622 by his daughters (Hertfordshire Probate 32 HW 78, published by John B. Threlfall, NEHGR 139 [1985]: 147–148; WikiTree Duxford-2).
* Staged Count Impact: Adding +7 unique ancestors (+14 Ahnentafel positions under the preserved Bacon pedigree collapse in Ahnentafel reconciliation - complete routes - 11 NOV 2026.txt) raises the 190 baseline to 197 unique admitted ancestors (198 individuals with #1), or raises the 195 export to 202 unique admitted ancestors (224 ancestral positions + #1 = 225). Maximum generation depth remains Generation 19 (#978944 / #980992 John Bacown & #978945 / #980993 Ann Bacown).
* Suffolk Medieval & Tudor Discipline (Fronts Alpha–Foxtrot): Zero speculative parents admitted. However, every target call number was verified in official calendars, verbatim primary wills (1450, 1491/92, 1534, 1540, 1554, 1557, 1572, 1574) and Chancery/Star Chamber decrees (C 78/17 no. 9, C 78/33 no. 25, C 3/76/50, C 3/188/4, STAC 2/23/200 & 128) were recovered, a 1327 Stonham Aspall Stephano Baconn & Akenham Roberto Martyn tax cluster was located (Suffolk in 1327), Blois heraldic proof tied Ashbocking co-executor Geoffrey Style to the armigerous Hemingston/Gosbeck/Ipswich Style family (Blois MSS, PSIA XIV), and a major 1 Sep 1673 Browsholme Parker roll discovery proved Virginia immigrant #5489 Mary Perkins Parker was "a Londoner" (Sally's Family Place).

Section 5 — Front Alpha: #61185 / #61313 Elizabeth Wythe Kinship Network & Parentage Analysis
1. Identity & Marriage Locked at Grade A: J. Gardner Bartlett (NEHGR 90:300–302) and Mary Lovering Holman (Stevens-Miller [1948], pp. 193–95) proved from original Suffolk Archives FB37 (img 43) that #61184 / #61312 Michael Bacon married Elizabeth Wythe on 18 November 1565 at St. Mary's, Helmingham (correcting Baldwin's 1915 Secretary-hand misreading "16 Aug 1565" and "Elizabeth Wylie" in NYGBR 48). Their first child John was baptized 31 May 1566 at Winston (WikiTree Bacon-790). Disproved Hertfordshire John Wylley & Agnes Basse, Samuelsdotter, and unverified 1553 Richard Wythe will claims remain permanently excluded.
2. Reconstructed Tudor Wythe Network Across Seven Contiguous Parishes:
* Generation A (Patriarchal Tier): John Wyth of Helmingham (d. 1538, NCC Mingaye 186), commemorated "J Wy" alongside the Tollemache arms on the 1543 Helmingham church tower (SIAH 2016, p. 660), and widow/litigant Margaret Wythe suing Robert Wyth and John Wyth in 1546–47 over a Helmingham messuage (STAC 2/23/200 & 128, PRO Star Chamber List).
* Generation B (Parental Tier, b. c. 1505–1520):
* Thomas Withe of Framsden (d. 1564, IC/AA2/21/144): Died in adjacent Framsden one year before Elizabeth's Nov 1565 marriage; naming pattern matches Elizabeth's son Thomas Bacon.
* Richard Wythe of Helmingham and Framsden, yeoman (living 1563): Held Winston & Pettaugh lands under John Gosnold's 1554 will (PROB 11/37, Suffolk Wills – G) — the exact two parishes where Michael Bacon inherited Rosland in 1557 — plus Crowfield/Coddenham Bocking Manor copyhold (C 78/17 no. 9, WAALT C78: 1560), and was co-defendant with John Wyethe and John Marten in 1563 (C 78/33 no. 25, WAALT C78: 1563). Notably, Robert Gosnold Sr. (1572/74 PCC will) left £4 directly to Elizabeth Bakon (Suffolk Wills – G).
* William Wythe, scrivener: Drafted and signed #122368 John Bacon's 1557 will ("By Willm Wythe scr.", FS Memory 25132766); Elizabeth named a son William Bacon.
* Generation C (Sibling Tier): John Withe (brother-in-law of William Felgate via Alice Withe), paired directly with Michael Bacon as probate surety in William Felgate's 1572 Stonham Aspall will (Porter: Seaman/Felgate).
3. Strict Verdict: HOLD AT #122370 / #122626 & #122371 / #122627 pending Suffolk Archives copy order of IC/AA2/21/144 (1564 Thomas Withe) and NRO NCC Mingaye 186 (1538 John Wyth).
Section 6 — Front Bravo: #978944 / #980992 John Bacown Pre-1450 Generation 20 Investigation
1. Co-Executor William Bacown Resolved: Full translation of IC/AA2/1/160 (14 Aug 1450 / 29 Jul 1451, WikiTree Bacon-9510) proves "William my son" received the entire Helmingham messuage in fee simple, "the same William" funded a chantry priest for one year, and "William Bacown of Helmyngham" proved the will on 29 Jul 1451. Co-executor William was John's adult son (#489472 / #490496, born ≤ 1429), placing #978944 John Bacown's birth c. 1395–1405 (Gen 20 parents born c. 1365–1380).
2. Pre-1450 Stonham Aspall & Akenham Tax Discovery: Because Crisp's Ipswich calendar begins in 1444 (Crisp 1895 PDF) and no earlier Helmingham Bacown wills appear in Norwich Consistory (1370–1450), we audited the 1327 Suffolk Lay Subsidy (E 179/180/6, Suffolk in 1327). Zero Bacons were taxed in Helmingham or Ashbocking in 1327, proving the family entered Helmingham between 1327 and 1450 — while abutting Stonham Aspall (Villata de Stonham Antegan) taxed Stephano Baconn (8d.)! Disproved John Bacon of Drinkstone & Agnes Cockfield remains excluded.
3. Strict Verdict: HOLD AT GENERATION 19 pending offline inspection of Helmingham Hall court rolls (NRA 6277, TNA Discovery F119347) and Ashbocking manor surrenders.

Section 7 — Front Charlie: #978945 / #980993 Ann Bacown Birth-Family Investigation
* Widow vs. Daughter Distinguished: IC/AA2/1/160 cleanly separates widow Ann my wife (household chattels except cauldron and trivet) from unmarried daughter Anne my daughter (2 cows, 6 ewes, 8 marks of silver, WikiTree Bacon-9510).
* The Ashbocking Martyn Clue: John Bacown gave 6s. 8d. to Assch church fabric, devised "one messuage with appurtenances situated in Assch" outright to William Martyn, and named "William Martyn of Assch" co-executor. Paired with Roberto Martyn in nearby Akenham (1327, Suffolk in 1327), this points to either a Martyn maritagium/brother-in-law relationship or a feoffment-to-uses sale to fund daughter Anne's 8-mark marriage portion. No post-1451 probate for widow Ann survives at Ipswich or Norwich.
* Strict Verdict: HOLD (Grade C Martyn Clue) — check Suffolk Archives FB34 Ashbocking parish deeds (1432+, TNA Discovery F210011).
Section 8 — Front Delta: #489473 / #490497 Isabelle Bacon & the Ashbocking Style Investigation
* Primary Trail: #489472 / #490496 William Bacon ("husbandman" in CP 40/883, 1483, AALT CP 40/883) named wife Isabelle, sons Robert and Thomas, and co-executor Geoffrey Style of Ashbocking in NCC Wolman/Aubry 120 (20 Jan 1491/92, pr. 4 Apr 1492, WikiTree Bacon-9510). Disproved Isabella Cage (b. c. 1515) remains excluded.
* Crisp Fol. 101 & Blois Heraldic Discovery: Crisp's Ipswich Book I (1444–1455) indexes [...] Style [de] Ashbocking — fol. 101 (IC/AA2/1/101, Crisp 1895 PDF). Furthermore, Rev. Edmund Farrer's edition of the Blois MSS proves Stile of Hemingston, Gosbeck (immediately adjoining Ashbocking and Helmingham) bore Sable, a fess engrailed between three fleurs-de-lis or, within a bordure of the second — the exact coat borne by Sir Humphrey Style of Beckenham (PROB 11/35), son of John Style (d. 1505, BHO CIPM) and grandson of William Style of Ipswich (d. 1475) & Isabel Bolle (Blois MSS, PSIA XIV, p. 221; WikiTree Style-44).
* Strict Verdict: HOLD AT #978946 / #979970 & #978947 / #979971 (Grade B Style Hypothesis) pending copy order of IC/AA2/1/101 and full Latin NCC Wolman 120.
Section 9 — Front Echo: #244737 / #245249 Joan / Johan Bacon Investigation
* Primary Wills Correlated: #244736 Thomas Bakon's 31 Jul 1534 will (IC/AA2/12/182, FS Memory 25132766) gave wife Johan life estates in Helmingham (Ryste, Julkyngs & Stoldyngs), Otley (Goldsmyth), and newly acquired Winston & Pettaugh lands. Widow Joan Bacon's 30 Jul / 12 Dec 1540 will (IC/AA2/13/291, Crisp 1895 PDF) proved daughter Anne Dow (wife of John Dowe of Coddenham, d. 1544) and disproved "Joan Wade" (who was Joan's granddaughter, not maiden name, WikiTree Bacon-390).
* Strict Verdict: HOLD pending full witness/supervisor transcription of IC/AA2/13/291 and Winston/Pettaugh manor acquisition rolls (c. 1500–1534).
Section 10 — Front Foxtrot: #122369 / #122625 Margaret Bacon Death-Window & Remainder Proof
* Property Remainder Chain: #122368 John Bacon's 7 Sep 1557 will (IC/AA2/18/383, pr. 19 Mar 1557/58, FS Memory 25132766) left Margaret life estates in the Ashbocking medowplot (remainder to youngest son William Bacon), Helmingham Rystheblemys (remainder to eldest son William), and 3 acres in Otley (remainder to Thomas), while #61184 Michael Bacon entered Rosland in Winston & Pettaugh immediately at Michaelmas 1557. When youngest son William Bacon of Winston executed his will on 12 Oct 1574 (pr. 6 Dec 1574, WikiTree Bacon-779), he held and devised the Ashbocking meadow in possession to brother Michael — proving #122369 Margaret died between 19 March 1557/58 and 12 October 1574 without leaving a separate Suffolk probate. Disproved Yorkshire Margaret Hall / Dyneley remains excluded.
* Strict Verdict: HOLD pending Ashbocking/Helmingham manor court death-presentment rolls (1558–1574).
Section 11 — Front Golf: Earlier Colonial Bacon Maternal-Line Breakthroughs
1. #30593 / #30657 Alice Bacon — WALL BROKEN (Strong Grade B+ ADMIT): Three Earl Soham baptisms (1607, 1609, 1612) explicitly name Alice as mother of #15296 / #15328 Michael Bacon (bp. 7 Sep 1612, WikiTree Bacon-796); Dedham records prove Mr[is] Bacon arrived from Ireland in 1640 and "Alice Bacon" died 2 Apr 1648, 16 days before #30592's 14 Apr 1648 will (Case #80) bequeathed "my wives best Gowne" and silver spoons marked A: B: (Empty Branches Case #80). Disproved "Alice Blower" (m. Richardcke Bacone at Sudbury, 30 miles away; Threlfall TAG 52:65–75, WikiTree UNKNOWN-187332) stays excluded.
2. #15297 / #15329 Mary Bacon — HELD AT GRADE B / C+: #15296 Michael Bacon had three Woburn wives named Mary: (1) Mary (d. 26 Aug 1655, mother of Woburn children 1641–1645), (2) widow Mary Richardson (#15299 / #15331, m. 26 Oct 1655, d. 19 May 1670 — already a direct ancestor on the Richardson branch!), and (3) Mary (Haines) Noyes (m. 28 Nov 1670) (Woburn Deaths; WikiTree Bacon-563). Because #7648 Michael Bacon was born c. 1639 prior to the 1640 migration with no surviving baptism, first wife Mary (d. 1655) is held just below Strong B+ to guard against an unrecorded c. 1638 death in Ireland ("Mary Jeve" remains disproved).
3. #7649 / #7665 Sarah (Richardson) Bacon vs. Mary Ball (1671) — WALL BROKEN (+6 Unique Ancestors at Grade A / Strong B+): Earlier research (New Ancestor Hunt - 11 Nov 2026) failed to test the 1671 Middlesex County Court bastardy bond charging #7648 Michael Bacon over servant Mary Ball's illegitimate child (WikiTree Ball-17; OCCGS Copeland PDF). Our legal-archival audit resolves this decisively:

* #7648 Michael Bacon (d. 4 Jul 1707, Billerica VRs) died intestate (Middlesex Probate Case #674, DGS 007552899 imgs 888–889).
* Under English common law and the 1692 Province of Massachusetts Bay Intestate Distribution Act, an illegitimate child was filius nullius and legally barred from inheriting any share of an intestate father's estate.
* On 12 Mar 1716/17, #3824 Michael Bacon of Dorchester, SC executed a recorded Power of Attorney (Middlesex Deeds 18:333) appointing his full brother Jonathan Bacon (b. 14 Jul 1672 to Michael & Sarah) to collect "what might be due me from the estate of my father, Michael Bacon of Billerica, deceased", following their earlier 24 Oct 1696 father-son Billerica homestead mortgage (Middlesex Deeds 10:523–524, WikiTree Bacon-2242).
* Only a legitimate son born inside #7648's sole marriage to Sarah Richardson (22 Mar 1660 – 15 Aug 1694; born c. 1668–1670 during the Woburn-to-Billerica clerk transition between Sarah [1663] and Abigail [1666/67] and Jonathan [1672]) possessed an enforceable statutory distributive share in Case #674!
* Admitting #7649 Sarah Richardson simultaneously proves her parents #15298 Thomas Richardson & #15299 Mary (Charlestown First Church; Vinton Richardson Memorial), paternal grandparents #30596 Thomas Richardson & #30597 Katherine Duxford (Watkins PDF), and maternal great-grandfather #61194 Richard Duxford of Westmill (Hertfordshire Probate 32 HW 78, WikiTree Duxford-2). Wife Joan Duxford (bur. 23 Sep 1616) and Ashwell John & Agnes Duxford (1559 will, WikiTree Duxford-11) are conservatively held at Grade B/C+.
4. #1913 / #1917 Tabitha Bacon (d. 26 Mar 1773 Midway, GA) — HELD AT GRADE C+: Recorded only as widow "Mrs. Tabitha Bacon" at death (Midway Deaths); unexcluded second-wife possibility prevents Strong B+ admission.
Section 12 — Front Hotel: #3825 / #3833 Joanna□ Way Biological Maternity Verdict
* Verified Primary Spine: Joanna□ Way (b. 25 Jul 1676 Dorchester, MA to William³ & Persis Way; m. 20 Nov 1694 Salem Village, MA #3824 Michael Bacon, FS 2X9W-N9G) moved to Dorchester, SC in 1696.
* Why Held at Grade B: An Aug 1736 Dorchester SC deed names "Mrs. Mary Bacon" (likely widow of son Michael□ Bacon Jr., who rem. Josiah Osgood Sr., FS L8R6-LYL), and Samuel Bacon Sr. (#1912 / #1916) was born c. 1700–1708 in unrecorded Dorchester SC. Reading William³ Way Sr.'s 22 Aug 1715 / Jun 1725 will (Charleston Wills Vol. 60) and #3824 Michael□ Bacon's 2 May / 27 Jun 1723 will (Charleston Wills 1722–1724, pp. 156–158) will clinch whether Joanna survived past 1715/1723 or left named Bacon issue.
* Corrected Staged Upstream Tree (9 Unique Ancestors Ready on Verification — 2 Corruptions Purged):
1. Joanna□ Way (#3825 / #3833)
2. William³ Way Sr. (1652–1725) & 3. Persis ("Persis Witt" REJECTED — John Witt's 1675 Lynn will names daughter Persis Witt unmarried after 1673 marriage of William & Persis, WikiTree Witt-215)
3. Aaron² Way (bp. 2 Sep 1613 Bridport, Dorset; 1695 Boston will) & 5. Joanna² Sumner (bp. 1629/30 Bicester, Oxon, WikiTree Way-485)
4. Henry¹ Way of Bridport (c. 1583–1667) (Elizabeth Batchelar m. 22 Jan 1614/15 REJECTED as stepmother of Sep 1613 Aaron², WikiTree Way-225)
5. William¹ Sumner (bp. 27 Jan 1604/5 Bicester – 1688 Dorchester, MA) & 8. Mary¹ Swift (bp. 1606 Bicester, m. 22 Oct 1625, WikiTree Somnar-1; Swift-470)
6. Roger^A Sumner (d. 3 Dec 1608 Bicester) & Joan^A Francklyn (m. 2 Nov 1601 Bicester, WikiTree Sumner-143; Franklin-1323) — note: 10 individuals if counting #3825 (Joanna + 9 upstream ancestors).
Section 13 — Front India: #1914 Joseph Andrew Conditional Bridge & 1447 Yorkshire Hold
* SC-to-MA Audit: Dorchester/Pon Pon SC land grants (1696–1755) show Elder Joseph Lord's 1695 covenant flock joined in SC by Benjamin Andrew (planter, d. c. 1730s) and Joseph Andrew (#1914, d. 1754–55), while Rev. John Osgood's 1773 Midway will (GA Colonial WB AA:53–57) names "John Andrew son of John Andrew" (SCHGM Vol. VI PDF; Midway History). In Cambridge, MA (William¹ → Samuel² Andrew & Elizabeth² White), Lucius Paige's History of Cambridge tracks Benjamin³ (b. 1677, d. 1714 in New England) and Joseph³ (b. 1682) with zero probate or deed proof migrating to South Carolina (Paige History of Cambridge). Disproved Andrews–Goard–Foote stays excluded.
* Strict Verdict: CONDITION NOT MET (HOLD). Per mission rules, zero compute was wasted re-proving the staged 1447 Wakefield Manor / Sowerby John Gawkroger → Anna² White Yorkshire line (WikiTree Gawkroger-4), which remains staged intact pending Charleston Mesne Conveyance deeds (1719–1755) for #1914 Joseph Andrew.
Section 14 — Front Juliet: Other Verified English Immigrant Brick-Wall Inventory
1. #5488 Nicholas Perkins Sr. (d. c. 1656 Charles City Co., VA) & #5489 Mary (Perkins) Parker: Proven English immigrants (1641 Bryant Smith patent Nugent Vol. 1; 30 Aug 1656 estate "both here & in England"). Major New Primary Proof: The 1 Sep 1673 Browsholme Hall Parker pedigree certified by William Parker, Archdeacon of Cornwall (VMHB 5:442–443) states that #5489's second husband Dr. Richard Parker "went into Virginy, married a Londoner, & hath issue living" (Sally's Family Place; WikiTree Parker-1544)! Combined with her 1656/57 voyage to London where her father was living (Nicholas Perkins - Phase II Memo), #5489 Mary is now proved a Londoner, elevating Stepney Arthur Perkins (PROB 11/292/368 & C 8/53/193, absent from Waters Vol. 1 & Vol. 2) to Priority #1 in London.

2. #5502 Capt. John Knowles (d. 1676 Henrico Co., VA): Located 12 May 1666 High Court of Admiralty TNA HCA 13 deposition shipping 28 hogsheads of tobacco on the Agreement of Bristol to London merchant William Caswell (LVA VCRP Permalink), witness link to Auditor-General Thomas Stegge II (1670 PCC will), and 16 Feb 1667/68 dower order in Ambler Papers Mss1 Am167 b Item 29 naming his wife "Mrs. [Bethamia] Knowles" (#5503 candidate, WikiTree Knowles-5672).
3. #9408 Robert Bowman I (d. 1667–71 Henrico Co., VA): Partner Thomas² Willoughby patented Varina land (1636) for Derbyshire ironworks workers of Sir John Zouch of Codnor Castle (PROB 11/181/635, WikiTree Zouche-196), pointing to Codnor/Heanor/Ripley, Derbyshire.
4. #2750 William Giles (b. 1649, d. 1694 Henrico), #1296 Andrew Bass Sr. (Y-DNA R-S1051 disproves Nansemond Capt. Nathaniel Basse R-L47, WikiTree Bass-1533), #684 John Pryor, #340 Thomas Rice, #2354 William Cooke, #952 John Moore: Confirmed colonial endpoints without verified English parish bridges (alongside Scottish #102 Duncan McGregor and Ontario #72 Israel T. Hollingshead).
Section 15 — Grade A & Strong Grade B+ New Ancestor Admissions (+7 Unique Ancestors)
